Chief, Medical Staff

10 December 1952

Deputy Comptroller

Medical Survey of the Far East

1. In view of the comments contained on page 5, paragraph 2c(1)(b), and on page 17, paragraph 3a(14), the Finance Division of this office made a complete review of the pay accounts of staff employees stationed in [REDACTED]

25X1A6a

2. As a result of this review, it was determined that there are five individuals who have not received salary differential payments due them because of the non-receipt in the Finance Division of the required cable advice of their date of arrival in [REDACTED] cable information be furnished Headquarters, which is the authority for initiating payment of differential and post allowances if applicable.

25X1A

3. The Finance Division has initiated a cable requesting this information; and, upon receipt of the reply, necessary adjustments of their pay accounts will be made.

4. According to the subject report, few individuals have had any explanation of the fluctuating deposits made to their accounts by Headquarters. We know of no reason why the individuals are not receiving advice concerning changes in pay, since change notices are pouched to the station each pay period. It may be that the remoteness of some individuals from the main base may have some effect on their receiving the desired information. If the latter is the cause, the station should take necessary action to rectify the situation.

5. If you have any additional comments or recommendations in this respect, they will be appreciated.
